AAPSCM® CERTIFICATION

American Certified Global Supply Chain Risk and Resilience Manager (AC-GSRM)®

Lead Global Supply Chain Risk and Resilience Strategy

About this certification

The AC-GSRM® certification is an advanced, executive-level program for managers, directors, and senior leaders responsible for identifying, assessing, mitigating, and managing risks across global supply chains. It equips you with strategic frameworks and analytical tools to strengthen resilience, ensure business continuity, and safeguard operations in volatile environments.

Key Learning Outcomes

- Develop enterprise supply chain risk frameworks.
- Identify and assess global supply chain vulnerabilities.
- Implement supplier risk governance models.
- Build resilient procurement and logistics strategies.
- Conduct risk analytics and predictive modeling.
- Develop business continuity and disaster recovery plans.
- Lead crisis response during supply chain disruptions.
- Implement digital risk monitoring systems.

Certification curriculum

- Global Supply Chain Risk Landscape
- Supply Chain Risk Assessment
- Supplier Risk Governance
- Logistics and Operational Risk
- Digital Risk Monitoring and Analytics
- Business Continuity and Resilience Planning
- Crisis Management and Disruption Response
- Compliance, Sustainability, and Continuous Improvement
